Desk Signs

Arris Desk Signs are an ideal solution for personnel identification, point-of-purchase displays, corporate reception area announcements and more. A formed anodized aluminum stand is attached to the back of the Arris frame positioning the sign at an ideal desktop and countertop viewing angle.

Workstation Signs

Arris System offers a unique yet easy attachment option for workstation signs.

An Aluminum Panel Clip is precision formed to custom specifications and attached to an Arris system holder. Because Arris clips are custom formed, they are compatible with virtually any workstation.
SP Series Signs

The Arris Single-Profile (SP) Series is an extremely cost-effective option for small personnel or room number signs. SP signs feature a 1/4" depth single aluminum extrusion frame which is compatible with a lift-up/pull-out .040" to .060" thick insert, including non-glare PETG, photopolymer, etc.
Desk Signs

DS2506
2.5"h x 6"w
