

From oversized wayfinding maps and building directories to large display needs for educational, transportation and retail facilities, **Arris Edge** is the perfect solution.

Arris Edge is not a "snap-frame" system like the other large, low-profile displays on the market. Edge is a well engineered, tamper-resistant display system for when durability, security and image matter.

- Modular
- Standard Displays Up to 30" x 48"
Custom Sizes Available
- Durable, Satin Anodized Aluminum Frame Extrusions
- 1/8" Thick, Non-Glare Acrylic Lens to Protect Displays
- Locking Edge Extrusion for Security & Graphics Compression
- Aesthetically Compatible with the Entire Arris Sign System
- 100% Made in the USA
